CANADA

Dear Joey:

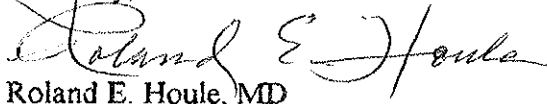

Very complimentary comments are still reaching us from attendees at the RSI Spring Music Festival fundraiser on May 26<sup>th</sup> when you performed brilliantly as a featured pro bono artist.

We were delighted that the beautiful Paul Robsham Theater at Boston College was available as the venue for your energetic and nostalgic Neil Diamond Tribute segment. There, your talents as a first class entertainer were on display for an appreciative mixed audience ranging from the humble and the young to the world-renowned and elderly.

The entire Board of Restoring Sight International, Inc. joins me once again to thank you for your great generosity on behalf of the poor. We know that you are strongly committed to our mission that "No Person Should Be Needlessly Blind".

I'm sure that Mr. Neil Diamond himself would be proud and happy that his inspired music, through your interpretation, has assisted a very noble charitable cause.

Sincerely,

Roland E. Houle, MD

Chairman
